Halogen Illumination

Clear view of what's happening inside

Want to see how your cooking is going but don't want to open the door and lose the heat inside? Halogen Illumination helps you see all your oven's cavity, so you can keep an eye on your culinary creations with the door firmly shut.

Telescopic Shelves

Safe & easy-pull-out tray

If you find yourself struggling to get that heavy dish out of the oven, Telescopic Shelves will make your life easier. Its runner system lets you pull out the shelf all the way out (or 2/3 of it, for partial Telescopic version) of the oven while supporting your dish.
